

Battery Adapter for CR2032

F5000-R014 | Motherboard Accessories

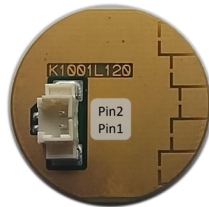

Optional Battery Adapter for onboard CMOS Battery CR2032

- This passive battery adapter is installed instead of the standard onboard CR2032 battery
- It provides a 2-pin connector to attach a wired battery to the motherboard
- Option to use a high capacity wired battery

APPLICATION	Adapter fits to onboard CR2032 battery socket (battery must be removed first)
BATTERY INTERFACE	2-pin header 1.25 mm pitch Molex PicoBlade™ 53398-0271 or compatible
SUPPORTED MOTHERBOARDS	All Kontron motherboards supporting onboard CR2032 battery via socket, except for D3714, D3724 and K3921 series

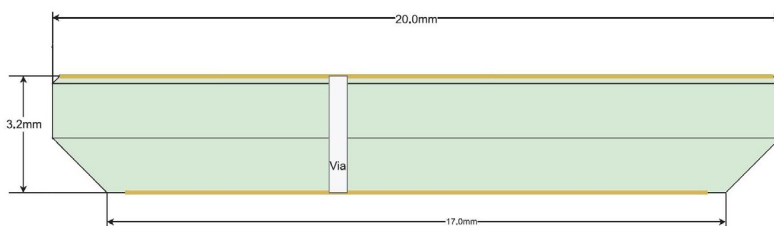

Pin Assignment

PIN	SIGNAL
1	VBAT (+3V)
2	GND
